

THE SCIENCE OF FIRE PROTECTIVE FOOTWEAR

For over 20 years, STC has delivered innovative protective footwear designs and materials to meet the most demanding working conditions. STC structural firefighter boots were developed with the same objective: to offer firefighters footwear that incorporates proprietary features for enhanced comfort and protection. STC firefighter boots are certified to the NFPA 1971 2007 Edition.

FIREFIGHTER BOOT FEATURES

1. Large 1" wide Nomex® webbing loop boot straps
2. Soft Nappa® leather-bound padded collar trim conforms to accommodate all leg sizes
