BENEFITS

14" HIGH PULL-ON DESIGN

| | | |
|---|---|---|
| NFPA 1971 – 2007 Edition | <ul style="list-style-type: none"> UL certified for liquid penetration resistance, thermal stability, durability and comfort | <ul style="list-style-type: none"> Designed, tested and proven to protect and work with today's emergency responders |
| Lock Fit Ankle Support System (patent pending) | <ul style="list-style-type: none"> Integrated anatomical ankle padding system that insures the foot is securely positioned within the boot | <ul style="list-style-type: none"> Helps prevent common foot injuries Provides complete support for increased wear comfort and reduced fatigue-related injuries |
| Pierce-Protect Arch Protection System (patent pending) | <ul style="list-style-type: none"> Flexible, ballistic grade composite material provides multidirectional puncture protection to the vulnerable arch area of the foot | <ul style="list-style-type: none"> Offers extra protection Moves with the foot to maintain comfort and mobility |
| Goodyear Storm Welt construction | <ul style="list-style-type: none"> Proven in all industrial and outdoor markets for years Features a relatively wide footprint | <ul style="list-style-type: none"> Offers the wearer good lateral stability Tough Enables easy repairs – including sole and heel replacement |
| CSA Grade 1 "wide flange" toe cap with rubber lip | <ul style="list-style-type: none"> Extra protection in vulnerable area, tested to withstand an impact up to 92.2 ft-lb (125 joules) Rubber lip prevents linear damage | <ul style="list-style-type: none"> Helps prevent injuries Enables more comfortable and durable footwear |
| Vibram nitrile-rubber toe area covering | <ul style="list-style-type: none"> Provides full toe area scuff protection | <ul style="list-style-type: none"> Increases durability Less wear area when crawling |
| Lenzi puncture resistant midsole | <ul style="list-style-type: none"> Flex resistant puncture protection positioned farther from foot | <ul style="list-style-type: none"> Offers enhanced puncture protection Makes boots warmer in cold weather |
| Double ridged ladder shank | <ul style="list-style-type: none"> Reduces painful arch compression | <ul style="list-style-type: none"> Enhances stability and comfort Helps prevent foot injuries |
| Ladder grips | <ul style="list-style-type: none"> Helps maintain grip interface on ladder rungs | <ul style="list-style-type: none"> More comfortable footwear helps prevent slip-related injuries |
| Slip-resisting Vibram Fire & Ice sole | <ul style="list-style-type: none"> Uses a special blend of unique polymers to offer durability and superior traction and performance at temperatures of both extremes | <ul style="list-style-type: none"> Provides stability and comfort under a full range of working conditions |
| Top grain, US-tanned FR full-leather upper | <ul style="list-style-type: none"> Water repellent and FR rated Natural leather is breathable and provides a tough and flexible shell for unsurpassed comfort | <ul style="list-style-type: none"> Gives firefighters unparalleled foot dexterity for running, crawling and climbing |
| Full CROSSTECH bootie construction up to 1" from the collar * | <ul style="list-style-type: none"> CROSSTECH fabric is engineered to provide superior liquid penetration resistance against blood, body fluids and NFPA common fire ground chemicals All CROSSTECH footwear fabric is seam-sealed for overall liquid penetration protection | <ul style="list-style-type: none"> Increases safety at emergency scenes |
| Cambrelle lining | <ul style="list-style-type: none"> Cambrelle is made using a unique bi-component fiber that's hard-wearing, breathable and absorbent (up to 3.5 times its own weight in moisture) | <ul style="list-style-type: none"> Provides a combination of comfort, absorbency and hard quality performance to protective footwear |
| Thermal insulating open-cell foam padding in key areas | <ul style="list-style-type: none"> Adds thermal insulation and comfort to critical areas | <ul style="list-style-type: none"> Provides a combination of comfort, absorbency and high quality performance to protective footwear |
| 3M Scotchlite silver reflective trim | <ul style="list-style-type: none"> Strategically positioned to provide added visibility | <ul style="list-style-type: none"> Enhances safety in low light areas |
| Ortholite dual density removable foot bed | <ul style="list-style-type: none"> Anti-fungal, anti-bacterial, breathable and shock-absorbing foam | <ul style="list-style-type: none"> Gives firefighters more comfortable, temperature controlled footwear Offers better foot and moisture control |
| Slip resistant, breathable micro-fiber technology protective heel strip | <ul style="list-style-type: none"> Minimizes wear on Cambrelle fabric Enhances foot stability | <ul style="list-style-type: none"> Increases long-term durability |
| Molded thermoplastic heel counter | <ul style="list-style-type: none"> Individually molded to every size for custom fit Keeps its shape even in severely wet conditions | <ul style="list-style-type: none"> Delivers more comfortable footwear Fits better Enables greater long-term durability |
| Size range | <ul style="list-style-type: none"> Complete range of men's and women's sizes are available – in full and half sizes – as per NFPA requirement | <ul style="list-style-type: none"> Fits better |
| Available medium, wide and extra-wide | <ul style="list-style-type: none"> Available in 3 different widths for appropriate fit as per NFPA requirement | <ul style="list-style-type: none"> Fits better |
| Large loop 1"-wide Nomex webbing boot straps with reinforced stitching | <ul style="list-style-type: none"> Ensures a secure and easy grip when donning boots | <ul style="list-style-type: none"> Better grip Faster donning |
| Soft Nappa leather bound, padded collar trim | <ul style="list-style-type: none"> Conforms to accommodate all leg sizes comfortably | <ul style="list-style-type: none"> Enables better all-around fit with no chafing |

10" HIGH ZIP-LACE DESIGN

| | | |
|--------------------------------------|--|---|
| Side zip opening | <ul style="list-style-type: none"> Simpler design Minimized lace interference | <ul style="list-style-type: none"> Offers minimal resistance on frontal flexion Enhances mobility when climbing and running |
| Nappa leather tongue and side gusset | <ul style="list-style-type: none"> High quality supple leather used in tongue and side gusset opening | <ul style="list-style-type: none"> Allows for wide entry area Provides an exceptionally comfortable fit against the skin |
| Heavy duty side brass zipper | <ul style="list-style-type: none"> Insures a strong closure Resists corrosion | <ul style="list-style-type: none"> Adds to long-term durability of the boot |
